📊 RISK ASSESSMENT

🚨 HIGH-RISK ISSUES

1. Business Model Mismatch

- **Risk**: Current implementation doesn't support business goals
- **Impact**: Cannot achieve $2.4M ARR target
- **Mitigation**: Immediate business model transformation

2. Technical Architecture Limitations

- **Risk**: Current architecture cannot scale to SaaS model
- **Impact**: Cannot support 4,000+ customers

- **Mitigation**: Complete technical architecture rebuild

3. Customer Experience Gaps

- **Risk**: Manual processes cannot scale customer acquisition
- **Impact**: Cannot reach customer targets
- **Mitigation**: Self-service platform implementation

4. Revenue Model Inconsistency

- **Risk**: Project-based billing cannot achieve recurring revenue
- **Impact**: Cannot achieve financial targets
- **Mitigation**: Subscription billing system implementation

🎯 MEDIUM-RISK ISSUES

1. Feature Gaps

- **Risk**: Missing AI-powered features
- **Impact**: Cannot compete with established players
- **Mitigation**: AI integration and feature development

2. Customer Success Gaps

- **Risk**: Manual customer success cannot scale
- **Impact**: High churn rates and low retention
- **Mitigation**: Automated customer success system

3. Integration Limitations

- **Risk**: Limited third-party integrations
- **Impact**: Cannot provide universal platform value
- **Mitigation**: API-first platform and integration marketplace
